

QGIS Application - Feature request #10055

map legends in composer - should be able to limit the number of decimal places displayed

2014-04-12 06:09 AM - Mark Mulligan

Status:	Closed	
Priority:	Normal

Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Easy fix?:	No	Copied to github as #: 18534
Description		
<p>Currently there appears no way to limit the number of decimal places displayed in map legends under composer for Scalar grids for example. A map legend currently displays six decimal places which is far too high precision for many datasets. It should be possible to control the number of decimal places displayed in legends both under propoerties in QGIS and in the QGIS composer</p>
