Description

Hi everyone. i am the developer of SLD4raster plugin. After my plugins approval, i cannot logging into
https://plugins.qgis.org/accounts/login/

Everytime i get that error and do not get any information mail !

*Error 500: internal application error.

An email message with all error details has been sent to our staff that will fix the issue ASAP.*

I also opened a topic in OSGeo Quantum GIS - Developer Forum.

- Status changed from Open to Closed

There was a double entry in the user table.

I don't know why it happens, it never happened before we moved to the new server and it should never happen since the user is created at the first login syncing from OSGEO LDAP.
