

QGIS Application - Bug report #10239
Selecting polygons triggers map reload

2014-05-12 09:45 AM - Tobias Schneider

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:			
Affected QGIS version:	2.2.0	Regression?:	No
Operating System:		Easy fix?:	No
Pull Request or Patch supplied:	No	Resolution:	duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #:	18678
Description			
In QGIS 2.3.0-Master-daily-build, selecting polygons in a PostGIS layer triggers a map reload. This makes selecting a few polygons for merging very time consuming. I am using Ubuntu 14.04 64 bit (also daily build). The Postgres version is 9.3 and PostGIS is 2.1.
