

## QGIS Application - Bug report #10240

### qgis 2.2 wont open

2014-05-12 11:26 AM - Elsa Mendes

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Windows Package	
<b>Affected QGIS version:</b>	2.2.0	<b>Regression?:</b> No
<b>Operating System:</b>	windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 18679
<b>Description</b>		
I've installed qgis 2.2 (64, windows 7 sp1) and it doesn't open, it stops when trying to configure the graphic user interface and don't give any error message (i've been working with qgis 2.1 for long without any problem)

Are you using the standalone application or OSGEO4W?

I'm using the standalone application, I've looked out for the postinstall.log and didn't find any errors messages

- Status changed from Open to Feedback
- Category deleted (GUI)

does this happens on other machines? please try also the osgeo4w installer and/or do a clean install (uninstall any qgis version and remove leftovers, the .qgis/.qgis2 folder and any registry entry).
