

QGIS Application - Feature request #10249

One to many relation: do not allow changing the FK

2014-05-13 05:04 AM - Paolo Cavallini

Status:	Open	Resolution: Copied to github as #: 18686
Priority:	Normal	
Assignee:		
Category:	Attribute table	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
During data entry from the parent table, the user is allowed to change the FK id. This is handy on the child table form, but in the parent one IMHO is only confusing and source of errors.
