

QGIS Application - Bug report #10354

DB Manager: displaying the preview tab for a table adds it to the map

2014-05-26 02:08 AM - Harrissou Santanna

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	DB Manager	
<b>Affected QGIS version:</b>	master	<b>Regression?:</b> No
<b>Operating System:</b>	windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 18775
<b>Description</b>		
<p>Hi,</p> <ul style="list-style-type: none"><li>- Open DB Manager and connect to your database (postgis one in my case)</li><li>- select a table and click on preview tab</li><li>- QGIS automatically adds this table to your map, instead of just displaying its contents in DB Manager. Every new table you select in preview mode or display its preview mode will be added to the map.</li></ul> <p>QGIS Master d652a80 (OsGeo4W)</p>
