QGIS Application - Bug report #10419
Processing toolbox does not see loaded GRASS raster layers

2014-06-02 06:44 AM - pvanbosgeo -

Status:	Closed		
Priority:	Normal		
Assignee:	Victor Olaya		
Category:	Processing/Core		
Affected QGIS version:	2.2.0	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	duplicate
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	18834

Description

I have loaded GRASS raster layers (through the GRASS toolbox) and opened a geotif raster layer. Now, if I open a function that requires a raster as input in the processing toolbox menu's, the geotif raster layer is available as an option. The GRASS raster layer is not.

Running 2.3 master, revision a76ec72 on Linux (Ubuntu 13.10)
