

QGIS Application - Bug report #10430

Adding REST Services

2014-06-03 06:52 AM - Randal Hale

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Rasters	
Affected QGIS version:	master	Regression?: No
Operating System:	Ubuntu 14.04	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 18844
Description qgis.utils.iface.addRasterLayer("http://server.arcgisonline.com/ArcGIS/rest/services/World_Imagery/MapServer?f=json&pretty=true","ra ter") returns an error. I'm about 90% sure this is in relation to a problem in GDAL as gdal_translate returns an error also. As it stands you have to manually build the XML to add a REST Service.
