QGIS Application - Bug report #10434
Placement position for line layer

2014-06-03 07:48 AM - dr -

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Labelling			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	18848	

Description

Now position of labels for line layer can be "Above line", "On line" and "Below line" and these options can be checked simultaneously. It is very confusing - how label can be above and below line simultaneously?

Associated revisions
