

QGIS Application - Feature request #10438

GetFeatureInfo on aliased fields

2014-06-03 09:45 AM - Giovanni Allegri

Status:	Open	Resolution: Copied to github as #: 18852
Priority:	Normal	
Assignee:		
Category:	QGIS Server	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>GetFeatureInfo doesn't work on fields where an alias is set, because subsetstring doesn't work on aliased fields.</p> <p>We should check if the field set in the filter is an alias for an attribute. Exactly the reverse of what is done here to generate the output attributes</p>		

History

#1 - 2014-06-03 09:46 AM - Giovanni Allegri

- Target version set to Future Release - Nice to have
- Category set to QGIS Server

#2 - 2017-05-01 12:47 AM - Giovanni Manghi

- Easy fix? set to No
