

QGIS Application - Feature request #1050

Panning should be enabled for the middle mouse button

2008-04-23 03:06 AM - Andreas Neumann

Status:	Closed	
Priority:	Low	
Assignee:	Tim Sutton	
Category:	GUI	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 11110
Description		
<p>It would be cool if cool if panning could be enabled when dragging with the middle mouse (or wheel) button, regardless of what tool is currently active. Currently, this is possible by pressing the spacebar.</p> <p>However, I think it would even be more efficient by activating the panning mode whenever a user click-drags with the middle mouse button.</p>

#1 - 2009-03-21 03:42 AM - Andreas Neumann

- Resolution set to fixed
- Status changed from Open to Closed

seems to work now in current trunk

Thanks!
