

QGIS Application - Feature request #10502

Further reduce vertex marker size

2014-06-08 06:25 PM - James Harvey

Status:	Open	Resolution: Copied to github as #: 18912
Priority:	Normal	
Assignee:		
Category:	Digitising	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
<p>It would be nice to drop the vertex marker size less than 1 in the application settings. Sometimes the update won't apply either if I try dropping it from 3 down to 1. I would like to have much finer vertex crosses (eg .5) and also adjust colouring of them.</p>
