**Description**

When adding the first layer in QGIS, previously (2.2) it zoomed to the extent of the loaded layer.

But in QGIS master (ae9048a), you need to zoom manually to the extent of the first loaded layer.

## Associated revisions

**Revision 840d5c56 - 2014-06-13 11:41 AM - Martin Dobias**

Fix #10525 (zoom to the first layer not always working)

## History

Hi Saber, if it is a regression eventually tag it as a blocker.

**#2 - 2014-06-10 07:41 AM - Saber Razmjooei**

Sure, waiting for confirmation or see if it's been resolved recently.

**#3 - 2014-06-10 08:01 AM - Antonio Locandro**

confirmed and should be tagged a blocker

**#4 - 2014-06-12 01:00 AM - Saber Razmjooei**

The bug is still there in 21f0b4f. It is definitely a blocker.

It was not possible to reproduce it in Ubuntu.
