

QGIS Application - Bug report #10549

Wrong usage of ellipses on buttons Load Style and Save Style

2014-06-11 01:46 PM - Jelle Frans van der Woude

Status:	Closed	
Priority:	Low	
Assignee:	QGIS Translation Team	
Category:	Translations and international	
Affected QGIS version:	2.2.0	Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 18956
Description		
<p>load_style_ellipses.png</p> <p>Following GUI guidelines the [Load Style]-button in the Layer Properties dialog should not have ellipses as it is a pulldown button. Its items should have the ellipses as these activate a dialog for user input, so 'Load From File...' and 'Load From Database...'. These menu items should also use Title Case.</p> <p>The [Save Style]-button is correct but its items should also have ellipses as these all activate a dialog for user input.</p>
