Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
<p>Hello,</p> <p>Could it be possible to fix the box size of the legend and the scale bar? When refreshing the content of the legend, the box resize automatically to fit the content. It would be great to fix it with a checkbox.</p> <p>Thanks</p>

Revision 2f8c6f52 - 2016-07-13 09:35 AM - Nyal Dawson

[composer] Add a checkbox for legends to prevent automatic resizing

A new checkbox has been added to the legend settings to control whether or not a legend should be automatically resized to fit its contents.

If unchecked, then the legend will never resize and instead just stick to whatever size the user has set. Any content which doesn't fit the size is cropped out.

Can we consider this as fixed (legend has a resize option and scale bar has fit segment option)?
