#### History

##### #1 - 2014-06-13 04:32 AM - Sandro Santilli

I had no GRASS installed, if that matters (mentioning because a lot of other errors come out about [STRING] and the first of the seem to be related to not finding a grass header)

##### #2 - 2014-06-13 05:48 AM - Jürgen Fischer

Did you remove GRASS, but still had GRASS\_INCLUDE\_DIR in your CMakeCache.txt?

##### #3 - 2014-06-13 05:55 AM - Sandro Santilli

- Resolution set to invalid

- Status changed from Open to Closed

Good catch: yes !

Removing CMakeCache.txt fixed it, thanks!
