

QGIS Application - Feature request #10582

Download data in Vector / OpenStreetMap

2014-06-14 04:47 AM - Harry Clarke

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:	No	Resolution: wontfix
Easy fix?:	No	Copied to github as #: 18988
Description Please add labels to the dialog box in download data for OpenStreetMap, accessed from the Vector menu in QGIS 2.2.0 As a new user to QGIS, and working through the introduction QGIS Training Manual, I can see that some co-ordinates are required to be input. But which coordinate system is being used? There are so many to choose from, and the training manual does not provide any explanation.		

History
