

QGIS Application - Feature request #10598

Show the spatial bookmarks

2014-06-16 01:50 AM - Paolo Cavallini

Status:	Open	Resolution: Copied to github as #: 19003
Priority:	Normal	
Assignee:		
Category:	Map Canvas	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
It would be useful to optionally show (e.g. with a red square) the bookmarks available in a project.		

History

Where?

#2 - 2014-06-16 03:03 AM - Nathan Woodrow

- Target version set to Future Release - Nice to have

In the canvas I am guessing.

#3 - 2014-06-16 09:47 AM - Paolo Cavallini

Yes

#4 - 2014-06-18 07:34 AM - Richard Duivenvoorde

I think it would be nice to do some discussion/redesign about this.

my wishlist:

- in my view it is not needed to have ctrl-B and shift-ctrl-B as they do almost the same thing: opening the dialog  
Within the open dialog it is easy to click "new bookmark). I now often end up with a bookmark just because I open it with the wrong keyboard shortcut. This will also create some menu-space.
- maybe we could hide the 'ID' column, and maybe add a EPSG OR change the SRID column to EPSG?
- an option to search in the bookmars (filter model) would be great
- an option to save the project related bookmarks in the .qgs file would be cool (for workshops, because passing a project/data zip then would also give them the bookmarks of the project). Otherwise maybe save as a bookmark file?
- the option that pcav says (maybe as a button in the dialog: show/hide)
- etc.

- *Easy fix? set to No*

**#6 - 2018-02-25 06:25 PM - Paolo Cavallini**

Still unimplemented in QGIS 3
