

QGIS Application - Feature request #10613

Model builder: allow choose name of algorithm outputs

2014-06-17 07:11 AM - Giovanni Manghi

Status: Closed	
Priority: Normal	
Assignee: Victor Olaya	
Category: Processing/Core	
Pull Request or Patch supplied: No	Resolution: fixed/implemented
Easy fix?: No	Copied to github as #: 19017
Description	
<p>In the model builder the outputs of tools are automatically named after the tool itself with a progressive number.</p> <p>In fair simple models this quickly leads to confusion when it is needed to choose those outputs as inputs for other tools.</p> <p>Allowing the user to name to outputs seems the right thing to do.</p>	

History

#1 - 2014-06-17 09:40 AM - Jürgen Fischer

- Subject changed from Model builder: allow choose name of algorithym outputs to Model builder: allow choose name of algorithm outputs

#2 - 2014-06-20 06:12 AM - Giovanni Manghi

- Target version set to Version 2.4

#3 - 2014-06-28 07:45 AM - Jürgen Fischer

- Target version changed from Version 2.4 to Future Release - High Priority

#4 - 2014-07-02 11:22 AM - Giovanni Manghi

- Resolution set to fixed/implemented

- Status changed from Open to Closed

implemented in master.

#5 - 2015-06-07 04:31 AM - Giovanni Manghi

- Category changed from 94 to Processing/Core
