QGIS Application - Feature request #10656

Atlas : geometryless or raster layer should not be listed in coverage layer list

2014-06-20 02:09 AM - Harrissou Santanna

Description

The coverage layer lists all the layers used in the project even if there are rasters or geometryless ones.

As those layers can't be used there, they should be filtered.

Associated revisions

Revision 1f12d00e - 2014-06-21 07:14 AM - Nyall Dawson

Invalidate model filter when setting filter for QgsMapLayerComboBox, fixes filters not correctly applying to layers in combo box (fix #10656)

- Status changed from Open to Closed

Fixed in changeset commit:"1f12d00ebde7a47fd1b4ce5db9c1c95f2e1ec3c3".

#2 - 2014-06-20 10:15 PM - Nyall Dawson

Note - I've left the choice of geometryless tables, since there's a very valid use case for that (think "mail-merge" style atlases, where a map doesn't change but details surrounding the map do).
