Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	invalid
Crashes QGIS or corrupts data:			**Copied to github as #:**	19072

Description

I observed that QGIS 2.2 do not open properly JPEG-2000 images under Linux Ubuntu 12.04. In past days it worked without problems with less recent JPEG-2000 images. Under Windows Vista, instead, JPEG-2000 images are visualized correctely.
