QGIS Application - Bug report #1072
WMS connection can't use the proxy

2008-05-07 05:22 AM - chg -

Status:	Closed			
Priority:	Low			
Assignee:	Tim Sutton			
Category:	Web Services clients/WMS			
Affected QGIS version:			**Regression?:**	No
Operating System:	SuSE		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	fixed
Crashes QGIS or corrupts data:			**Copied to github as #:**	11132

Description

We have to use a proxy to connect to external WMS providers.

versions below 0.10.0 perfectly work with the proxy,

only brings following error message:

"Could not understand the response. The wms provider said:"

Terminal gives an additional error:

Warning: UNEXPECTED RESPONSE: [HTTP/1.0 403 Forbidden

Server: squid/2.6.STABLE6

Date: Mon, 05 May 2008 15:58:06 GMT

Content-Type: text/html

Content-Length: 1047

Expires: Mon, 05 May 2008 15:58:06 GMT

X-Squid-Error: ERR_ACCESS_DENIED 0

X-Cache: MISS from proxy

X-Cache-Lookup: NONE from proxy:3128

Via: 1.0 srv

Proxy-Connection: close

]

Settings for proxy are:

URL: http://mapserver.jrc.it/wmsconnector/com.esri.wms.Esrimap/image2000_pan

Proxy Host: proxy

Proxy Port: 3128

Same settings did work in 0.8 and 0.9.

I can also exlude a problem with the remote server, as others also do not

work. If I omit the proxy and connect directly, it also works fine.

Used Version: 0.10.0 from openSuse repo.

History

#1 - 2008-07-09 04:47 AM - Tim Sutton

This should work in 0.11.0 - I've refactored the proxy settings to a single global configuration tab in Options -> proxy. I'm closing this bug - if the problem

persists for you in 0.11.0, please reopen.

Regards

Tim
