- *Category set to 94*

**#2 - 2014-07-02 03:07 AM - Giovanni Manghi**

- *Resolution set to worksforme*

- *Status changed from Open to Closed*

- *Subject changed from saga triangulation plugin not working to saga triangulation module not working*

please see #10769-1

the fact you can get that message does not means that the module is broke (in QGIS). You must read the log messages (that are from GRASS/SAGA/etc.) and see if you can get what the problem can be, usually is an input problem, at times can be a native tool problem, sometimes in can be the QGIS integration problem.
