

## QGIS Application - Bug report #10814

### Ability in style color to add Hex Color Codes

2014-07-05 02:32 AM - baditaflorin -

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	Nyall Dawson	
<b>Category:</b>	Symbology	
<b>Affected QGIS version:</b>	2.4.0	<b>Regression?:</b> No
<b>Operating System:</b>	unspecified	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 19190
<b>Description</b>		
<p>For now we have to manually select all the setting , the RGB</p> <p>If you have the Hex-values you have to manually select them and paste in each of the 3 values, making a tedious process</p> <p>From what i have seen, Qgis is using the default windows color picker, so i don't know how easy is to implement something like this but it would be nice and useful</p> <p>Maybe something like this</p> <p><a href="https://github.com/cyotek/Cyotek.Windows.Forms.ColorPicker">https://github.com/cyotek/Cyotek.Windows.Forms.ColorPicker</a></p>		

#### History

**#1 - 2014-07-06 02:30 PM - Jürgen Fischer**

- Category set to Symbology

**#2 - 2014-07-07 09:07 AM - Giovanni Manghi**

- OS version deleted (7)

- Operating System deleted (Windows)

**#3 - 2014-09-07 04:39 AM - Nyall Dawson**

- Assignee set to Nyall Dawson

**#4 - 2014-09-17 05:09 AM - Nyall Dawson**

- Resolution set to fixed/implemented

- Status changed from Open to Closed

Implemented in master.
