Crashes QGIS or corrupts data:	No	**Copied to github as #:**	19202	

Description

Since 2.4, if you press 'S' you can see the rendering time on the bottom (usefull to compare multithreading). But you can't edit this shortcut on the shortcut settings window.

I'm used to use 'S' as single select shortcut and now it does 2 action, is that possible to add this shortcut on the shortcut setting window ? Or add the possibility to disable this decoration ?
