Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	19277

Description

When trying different queries in the Query Builder it would be a nice feature to comment them to see (quickly) the differences between them, or to comment your own work.

SQL comments don't work (i.e. /* */, #, --)

See: http://gis.stackexchange.com/questions/107522/

Example:

1. Control Query

    "id" < 15 # This has to be evaluated

1. "id" > 15
2. "id = 15
