| Pull Request or Patch supplied: | No | Resolution: up/downstream |
| Crashes QGIS or corrupts data: | No | Copied to github as #: 19286 |
| Description | | |
| <p>I have a plugin [0] which uses composerMapItems constructor but the plugin is giving me problems on 32bit versions. I compared the result of dir(QgsComposition) on a 32 bit version and a 64 bit version and the 32 bit version is missing composerMapItems. The 32 bit version is also missing 'senderSignalIndex'.</p> <p>http://plugins.qgis.org/plugins/syncComposerWithMap/</p> | | |

I mean the Windows 32 bit version.

#2 - 2014-07-22 03:51 PM - Nyal Dawson

- Category changed from Map Composer/Printing to Windows Package

This is a packaging issue - as mentioned in the docs that method requires pyqt >= 4.8.4 . currently the 32 bit windows build uses pyqt 4.8.3.

#3 - 2014-07-23 12:14 AM - Jürgen Fischer

- Resolution set to up/downstream

- Category deleted (Windows Package)

#4 - 2014-07-24 03:00 AM - Giovanni Manghi

- Status changed from Open to Closed

Just for the record, I opened a ticket in osgeo4w tracker. We also have mask plugin broken in 32 bit package..
