<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> end of life
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 19302
<b>Description</b>		
<p>Using QGIS v2.4 and up to date extension packages i spotted a bug.</p> <p>When importing tables via DB-manager from a esri file GDB the field names are not converted to lower case. Previously i loaded the data as type ESRI fileGDB.</p> <p>In a previously try i thought this also happens when loading data from a pesonal GDB but i couldn't reproduce the error. Maybe the GDB i got wasn't ok, too.</p>		

#### History

##### #1 - 2017-05-01 01:08 AM - Giovanni Manghi
