

QGIS Application - Feature request #1105

Mapfile export - PostGIS port is missing

2008-05-23 02:10 PM - str238 -

Status:	Closed	
Priority:	Low	
Assignee:	Gary Sherman	
Category:	Python plugins	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 11165
Description		
It would be great to include also the 'port' parameter into the mapfile export. This is currently missing, so the default port 5432 is assumed.

- Resolution set to fixed
- Status changed from Open to Closed

from what I see, this is working now: using a project to a postgis layer with a server on another portnummer gives me a connection string like:

CONNECTION "dbname='geo' host=localhost port=54322 user='qgis' password='qgis' sslmode=disable"
