QGIS Application - Bug report #11056
Extend closestSegmentWithContext to all WkbTypes

2014-08-14 06:45 PM - Caio Hamamura

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Unknown			
Affected QGIS version:	2.4.0		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	end of life
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	19390

Description

closestSegmentWithContext is a great functionality. I think that it would be very useful if you could provide any WkbType instead of QgsPoint.

If I need to find the closest segment to a WkbPolygon for example I would have to loop through all points and will have a poor performance in python.
