### Description

Right now, if you select item(s) directly from the composer sheet, the items panel doesn't indicate which item(s) is/are selected. It would be nice for the selected items to have the display name underlined (duplicating an established behavior found on the qgis main canvas' layers panel)

### Associated revisions

**Revision d70235ff - 2014-08-25 01:46 PM - Nyall Dawson**

[composer] Show selected items in bold in items tree panel (fix #11057)
