

QGIS Application - Bug report #11085

delayed start after VPN use

2014-08-21 02:04 AM - Jakob Lanstorp

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Affected QGIS version:	2.4.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 19418
Description Reproduce VPN 'error' in OSGEO4W QGIS 2.4 and previous versions: 1. Use data or a QGIS project through a VPN connection. 2. Close QGIS 3. Close VPN 4. Open QGIS. Now QGIS takes minutes to start, maybe looking for a closed VPN path. The text in the hanging QGIS splash dialog is: Setting up the GUI. 5. Close QGIS 6. Open QGIS: QGIS starts with no delay now.
