| **Pull Request or Patch supplied:** | | | **Resolution:** | fixed |
| **Easy fix?:** | No | | **Copied to github as #:** | 11169 |

## Description

1. create a new directory called data/ in the docs/trunk/english_us directory of the repository

2. add the Alaska shapefiles from the current sample data package (alaska, lakes and majrivers) in a subdirectory called shapefiles/

3. get a points shapefile from somewhere (cities in Alaska would be a good one) and add that too

4. Edit the the Manual Management wiki page to indicate that this format has been added to the dataset

## History

**#1 - 2008-08-02 02:30 AM - Tim Sutton**

Hi Tara

Is this issue still open? Is there a particular person you were hoping to resolve it for you? Please update this ticket if it is resolved, or indicate who you would like it assigned to as I am trying to clear all the 'must fix' items away before the release.

Many thanks

Tim
