

## QGIS Application - Bug report #11090

### Unable to display WMTS layer from ArcGIS

2014-08-22 01:36 AM - Tony Stewart

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Browser	
<b>Affected QGIS version:</b>	2.4.0	<b>Regression?:</b> No
<b>Operating System:</b>	Windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 19423
<b>Description</b>		
The following layers do not display: <ul style="list-style-type: none"><li>- <a href="http://apps.dunedin.govt.nz/arcgis/rest/services/Public/PhotoCache2013/MapServer/WMTS">http://apps.dunedin.govt.nz/arcgis/rest/services/Public/PhotoCache2013/MapServer/WMTS</a></li><li>- <a href="http://gisdata.orc.govt.nz/arcgis/rest/services/Imagery/OtagoRegionalAerials/MapServer/WMTS">http://gisdata.orc.govt.nz/arcgis/rest/services/Imagery/OtagoRegionalAerials/MapServer/WMTS</a></li></ul> To reproduce the problem: <ol style="list-style-type: none"><li>1. Open the "Add WMS/WMTS Layer" tool.</li><li>2. Create a new connection using one of the above urls.</li><li>3. Connect to the service. 2 layers are displayed.</li><li>4. Select one of the layers.</li></ol> The layer does not display. The Metadata tab on layer properties shows errors for right bounds.

- Status changed from Open to Closed

On further investigation, it appears the problem is caused by errors in the WMTS GetCapabilities response from the ArcGIS server. Both servers are version 10.1 - the problem seems to be fixed in 10.2
