QGIS Application - Bug report #11112
Large Format Printing (A1, A0)

2014-08-27 11:21 PM - Darryl Browning

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Map Composer/Printing		
Affected QGIS version:	2.4.0	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	not reproducable
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	19442

Description

If you print to an external device A2 Prints OK, A1 prints with the Composer content A2 sized at the top left of the sheet and A0 prints with the Composer content A1 sized at the top left of the sheet.When you output a Composer using the internal PDF creation the PDF seems to be created OK.

I have been testing using the PDFCreator Printer driver but this seems to confirm the I have experienced trying to print to A1 using a HP Plotter.
