QGIS Application - Feature request #11140
Update attributes of a joined layer automatically

2014-09-04 07:10 AM - Joseph Liam

Status:	Closed

Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	19468

Description

Layer_A is joined with Layer_B.

If you change some attributes of Layer_B and save the edits, it would be ideal for those same attributes to also be updated in Layer_A. Otherwise, the only current way to update Layer_A is by either reloading the project or re-joining Layer_B.
