Description

if you enable a group, of which some layers were previously deleted, it is not marked as in use (group is not checked in the menu).

hence, you cannot delete this group anymore.

also, nice to have would be to update a group.

Old visibility groups are still not checked after loading them.

Hence I can't remove them.

might require a take 3, sorry...

I am still having trouble. I suspect this is related to rule based symbols visibility.

If it helps, we could arrange a live debugging on my project. Let me know.
