QGIS Application - Bug report #1119
Display field does not stick in general tab of layer properties

2008-05-29 11:26 AM - John Tull

Status:	Closed			
Priority:	Low			
Assignee:	Jürgen Fischer			
Category:	GUI			
Affected QGIS version:		**Regression?:**	No	
Operating System:	OS X	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed	
Crashes QGIS or corrupts data:		**Copied to github as #:**	11179	

Description

For shapefiles, when changing the "Display Field" item under the General tab of the layer properties, the drop-down menu always shows the first field once the layer properties dialog has been closed and reopened. The drop-down should display the last selected item instead. This only occurs after closing the dialog, not when switching between tabs of an open dialog.
