

QGIS Application - Feature request #11258

Improve options for placement of guides on composer page

2014-09-23 07:51 AM - Spencer Gardner

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Map Composer/Printing		
Pull Request or Patch supplied:	No		
Easy fix?:	No	Resolution:	fixed/implemented
		Copied to github as #:	19558
Description			
<p>Presently guides are placed using the mouse which is inexact. It would be nice to allow for the selection of individual guides with a pane containing options specific to that guide under the Item Properties tab. For example, if I want to place a vertical guide at exactly 10mm on the map page, I would place the guide on the composer page, select it, and then enter 10mm in a text box.</p>
