

QGIS Application - Bug report #11272

Print composer: table frame background extends beyond full table rows

2014-09-26 12:48 AM - Andreas Neumann

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	Nyall Dawson	
<b>Category:</b>	Map Composer/Printing	
<b>Affected QGIS version:</b>	2.4.0	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>		<b>Copied to github as #:</b> 19570
<b>Description</b>		
<p>In print composer, if the frame background extends beyond a multiple of full table row height, the background goes beyond the full table rows (as in the screenshot image provided).</p> <p>It would be nice if the frame background could be restricted to a multiple of a row-height.</p>		

Associated revisions

Revision 456e9713 - 2014-10-03 01:08 AM - Nyall Dawson

[composer] Fix table background extending beyond table rows (fix #11272).

It was necessary to add a new 'table background' color option to prevent regressions when loading old compositions, since users may desire the old behaviour where the entire frame is filled.
