QGIS Application - Bug report #11285
The cell to set the order of symbol level are disappeared

2014-09-27 12:50 PM - aperi2007 -

Status:	Closed			
Priority:	Normal			
Assignee:	Martin Dobias			
Category:	GUI			
Affected QGIS version:	2.4.0	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	Yes	**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	19581	

Description

I try to use the new qgis-dev, and see that in the style section.

When choose the advanced Level Symbol.

The windows don't show the cell where set the number of priority of the level.

I try to enlarge the windows to see if it is on left or right but nothing.

I show an image to better explain:

Fix #11285 (improve symbol levels dialog for long symbol labels) - by Salvatore Larosa

History

#1 - 2014-09-28 03:34 AM - Salvatore Larosa

- Pull Request or Patch supplied changed from No to Yes

- Assignee set to Martin Dobias

- File symbollevels.png added

there is a patch here https://gist.github.com/slarosa/9431e90bc4396f3057ad
The patch also introduces to save geometry for the symbol levels dialog.

basically changes the header by removing only the symbol label which now is a read only cell in order to allow to resize it.
I am not aware of a different workaround for fixing this. Maybe Martin has something better :-)

#2 - 2014-10-02 08:42 AM - Martin Dobias

- Status changed from Open to Closed

Fixed in changeset commit:"f652afb9fac246742d7a131bcd9b6b7f7156709f".

#3 - 2014-10-02 08:44 AM - Martin Dobias

Thanks Salvatore for the fix! I have applied it with just minor changes.
