

QGIS Application - Bug report #11339

WMTS tile request not properly working

2014-10-06 09:06 AM - marco moderato

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Web Services clients/WMS	
Affected QGIS version:	2.4.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 19633
Description		
Hi, it seems there is something not properly working with the Tile request in the WMTS client. The error I keep receiving is the following: "Errore numero massimo di richieste di mattonelle. Fallite 3 richieste per le mattonelle 0 della richiesta 1 (url: /Services/host/host.ashx?url=http://localhost:85/utm34n/ortofoto/UTM34N/1/0/0.jpg&AspxAutoDetectCookieSupport=1)" (Transl:* Maximum error of tile request. Failed 3 requests for tiles 0 of request 1*) the address of the wmts service is the following: http://geoportal.asig.gov.al/Services/host/host.ashx?url=http://localhost:85/utm34n/ and it seems to work properly on the webpage http://geoportal.asig.gov.al/Map.aspx?lang=AL
