QGIS Application - Bug report #11358 Spatial index is not used in Oracle views

2014-10-08 06:28 AM - Viktor Rasmussen

Status:	Closed				
Priority:	Normal				
Assignee:					
Category:	Data Provider/Oracle				
Affected QGIS	version:2.4.0	Regression?:	No		
Operating System:		Easy fix?:	No		
Pull Request or Patch supplied:		Resolution:			
Crashes QGIS or corru ptes data:		Copied to githul	Copied to github as #: 19649		
Description					
data is fetched in	ayer that corresponds to a view in Ora to QGIS regardless of zoom level and not seen when using Oracle tables di	d performance is very poor for larg	ge datasets.		
data is fetched in This behaviour is	to QGIS regardless of zoom level and	d performance is very poor for larg irectly. It is also not seen when us	ge datasets.		
data is fetched in This behaviour is I have used an S	to QGIS regardless of zoom level and not seen when using Oracle tables di	d performance is very poor for larg irectly. It is also not seen when us y qgis.	ge datasets. sing PostgreSQL vi

Revision 991f94d3 - 2014-11-04 12:21 AM - Jürgen Fischer

oracle provider:

- if a no spatial index is found try sdo_filter (fixes #11358)
- allow specifing connection parameters (eg. OCI_ATTR_PREFETCH_ROWS=10000)
