

QGIS Application - Bug report #114
labels not working for shapefiles

2006-05-14 12:54 AM - Surge -

Status:	Closed	
Priority:	Low	
Assignee:	Martin Dobias	
Category:	Map Canvas	
Affected QGIS version:		Regression?: No
Operating System:	Linux	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 10173
Description		
<p>Labels are not displayed for some ESRI shapefiles including ones created by ogr2ogr.</p> <p>The fields and data are shown in the attribute table inside QGIS but they are not rendered with the features.</p> <p>Data used : city shapefiles from ESRI World Base Map. (http://www.esri.com/data/download/basemap/index.html)</p> <p>Even after stripping down the shapefile to just CITY_NAME with ogr2ogr QGIS would still not render the labels but is quite happy to show it to me in the attribute table.</p> <p>This problem has been around for a couple of releases and is still in version 0.7.4</p>		

History

#1 - 2006-05-14 06:11 AM - Redmine Admin

Work for me in 0.8.0Preview.

#2 - 2006-05-14 06:39 AM - Mateusz Loskot -

I want to add that I tested it with 0.8.0Preview.

#3 - 2006-05-14 02:49 PM - Gavin Macaulay -

- Resolution set to fixed
- Status changed from Open to Closed

This problem is resolved in the 0.8.0 pre-release versions of qgis.
