Revision de91734f - 2014-10-18 04:37 PM - Victor Olaya

[processing] fixed issue when running models in a batch process

Fixes #11438

History

#1 - 2014-10-18 08:10 AM - Victor Olaya

- Status changed from Open to Closed

Fixed in changeset commit:"de91734fc8d850bff06e6a78d2fa260f56f89291".

#2 - 2014-10-24 06:41 AM - Paolo Cavallini

- Status changed from Closed to Feedback

I still have issue with this. If I choose a name like "prova" and an autofil with layer name (pt1, pt2 etc.), I get provpt1a, provpt2a etc.

#3 - 2014-10-24 09:39 AM - Giovanni Manghi

- Resolution set to fixed/implemented
- Status changed from Feedback to Closed

this issue is the same as #8511 but in that case (using the batch mode + autofill) is fixed for me on master (also when running models in batch mode). Do you have any "processing" folder inside .qgis2/python/plugins ?

#4 - 2014-10-24 10:28 AM - Paolo Cavallini

Nope, clean config. Movet to #8511
