

QGIS Application - Bug report #11482

Resize mode Clip behaves like Stretch for Image composer item

2014-10-24 01:20 AM - Diethard Jansen

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	master	Regression?: No
Operating System:	Ubuntu	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 19752
Description		
<p>The Resize modes "Clip" and "Stretch" can be selected in the Item properties after adding an image in the print composer. After selecting the resize mode "Clip", it does what you expect from the "Stretch" mode.</p> <p>Description from API documentation what Clip should do: CLIP : Draws image at original size and clips any portion which falls outside frame.</p>

Is this using an SVG image?

#2 - 2014-10-27 09:56 PM - Diethard Jansen

- % Done changed from 0 to 100
- Status changed from Open to Closed

Yes I used an SVG, I tried it now with a PNG and I am aware now it is meant for raster images only. I will describe it in the manual.

Thanks..
