Description

#1072 QGIS server: embedded groups do not render in GetMap requests if leave layers are requested has been fixed
40d91457f6f069886c5ba1c28db1efb2ff4ccac7

But another fix about embedded layers lacks. A fixme annotation is in the QgsServerProjectParser::createLayerFromElement. This one is about return the layer if it is embedded.
