

QGIS Application - Feature request #11503

Save as image do not export text annotations

2014-10-26 06:59 AM - marisn -

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Canvas	
Pull Request or Patch supplied:		Resolution: fixed/implemented
Easy fix?:	No	Copied to github as #: 19773
Description As #5301 has been marked as "fixed" but exported images still do not contain text annotations, it is a regression (new bug not a feature request). Tested with QGIS 2.5.0-Master 5f11c33 Steps to reproduce - use text annotation tool to add some markings on map canvas && Project -> Save as Image Results - text annotation is missing in the obtained image. Expected results - text annotation is present in the obtained image.

Hi,

I cannot confirm it is a regression, I tested down to qgis 1.6... maybe an even older release?

Anyway you can export tiff+world file also from the print composer, and that can 100% include text annotations, so may this can be considered really a feature request...
