

QGIS Application - Bug report #11585

Import into PostGIS fails due to capital letter

2014-11-06 07:48 AM - Spencer Gardner

Status:	Closed	
Priority:	Normal	
Assignee:	Victor Olaya	
Category:	Processing/QGIS	
Affected QGIS version:	master	Regression?: No
Operating System:	Ubuntu	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 19845
Description		
<p>When using the Import into PostGIS tool, if I give a table name that starts with a capital letter the tool fails while creating the spatial index:</p> <p>MESSAGE: relation "scratch.tablename" does not exist QUERY: CREATE INDEX sidx_Tablename ON scratch.Tablename USING GIST(geom) See log for more details</p> <p>It appears the script doesn't honor the initial capital letter when trying to create the index.</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none">1 - Open "Import into PostGIS" processing tool2 - Fill out appropriate fields, specifying a table name that starts with a capital letter3 - Run the tool <p>Expected behavior is that the tool successfully creates a new table with a spatial index.</p>
