QGIS Application - Bug report #11593
QGIS crash when working over old project files

2014-11-07 04:28 AM - Miguel Sevilla-Callejo

Status:	Closed		
Priority:	Severe/Regression		
Assignee:			
Category:			
Affected QGIS version:	2.6.0	**Regression?:**	No
Operating System:	Linux	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	duplicate
Crashes QGIS or corrupts data:	Yes	**Copied to github as #:**	19852

Description

QGIS crash unexpectedly when working with projects I did in earlier versions of QGIS (2.4.0).

It close sometimes when save the project in the new version (producing a 0 bites file, so removing the old one) or changing some stuff in layer legend.

Backtrace messages are stored in a previous issue: #11546 (this it is the continued issue indeed)
